Wrocław International  
School

## ABOUT US

**Established in September 2002 WIS is the first international school in South-Western Poland.**

The school has grown into an exciting learning community which serves the needs of expatriates in the Lower Silesia region.

At WIS we encourage students to think critically and we view learning as a life long process.

**We believe in a balanced education that meets each student's needs.**

We aim to foster international mindedness, supporting active participation in our community while at the same time supporting our students to gain an understanding of the global impact their actions and values can and do have on their lives as well as the lives of others, the environment and the world we live in.

TODAY'S LEARNERS,  
TOMORROW'S LEADERS!

## OUR PROGRAM

**WIS is an IB World School. The first school in Poland authorized to deliver both the Primary Years (PYP) and Middle Years (MYP) programmes.**

The IB programme framework is based on an attractive teaching model, the main aim of which is to help students to be active thinkers willing to solve problems. The IB offers a continuum of programmes from the PYP to the MYP and IB Diploma affording students a coherent and progressive educational experience. The curriculum is academically rigorous and challenging. It fosters a positive attitude towards learning focusing on problem solving, creativity, ingenuity, student action and active community involvement. The curriculum also encourages critical thinking as well as personal and academic reflection which encourages independent learning.

**“If we teach today as we taught yesterday,  
we rob our children of tomorrow.”**

**John Dewey, "Democracy and Education", 1916**
